Would Centralize Roads' Regulation

Frank Trumbull Thinks All Railway Supervision Should Be by Federal Government

[By Associated Press.]
WASHINGTON, October 17.—Frank Trumbull, chairman of the railway executive advisory committee, announced before the Association of Passenger Traffic Officers here to-day that railway interests would recommend centralization of interstate railway regulation in the Federal government, and removal of many supervisory powers from States before the congressional investigating committee, which will begin an exhaustive inquiry into railroad conditions next month.

The railroads will advocate, Mr. Trumbull said, Federal incorporation of interstate roads, reorganization of the Interstate Commerce Commission along regional lines, with subordinate district commissions, and regulation of issuance of securities only by the Federal government.

"It is the hope of the railways that out of this investigation will come a much-needed plan of co-ordinating and simplifying our system of transportation regulation," said Mr. Trumbull. "Probably \$100,000 is being expended every year as a result of a lack of co-ordination. Transportation cannot be regulated by State lines."

The association to-day went on record as favoring establishment by all railroads of a uniform cipher telegraph code, and simplification of tickets by omitting contract losses. The question of economizing time tables by withdrawing them from hotels and other public places was left to local passenger traffic organizations.

The Society of Railway Financial Officers held conferences to-night preliminary to the opening of its annual meeting to-morrow.

SEVEN DIE IN FLAMES

Henry Loss of Life When Two Factories Are Destroyed in Queensborough.

[By Associated Press.]
NEW YORK, October 17.—Seven persons were burned to death and two others are missing as a result of a fire, which destroyed two factories in the manufacturing section of Queensborough late to-day, with a material loss estimated at \$250,000.

The charred bodies were not found until the flames had been extinguished and flames were sent Mr. water into the ruins of the buildings. All the burned were clerical employees in the plant of the Oakes Dye Manufacturing Company, where the flames started among chemicals on the first floor of the Oakes building and spread with such rapidity that the office force was trapped on the second floor.

In addition to the office building, new one-story buildings of the Oakes Company were destroyed. From these buildings the fire spread to the Astoria veneer mill and lumber yard, where many thousands of feet of lumber were destroyed.

TO BE BURIED IN AMERICA

Body of Norman Prince, Aviator, Will Be Brought to This Country for Burial.

[By Associated Press.]
BOSTON, October 17.—The body of Norman Prince, American aviator, who was fatally injured last week while operating an aeroplane in a French air raid on Oberdorf, will be brought home for burial, it was learned to-day. Arrangements for the shipment will be made by Frederick Prince, Jr., a brother, and Charles Prince, an uncle, who took charge of the body of the aviator after he died in the hospital in the Vosges on Sunday, shortly after the "Cross of the Legion of Honor" had been pinned on his breast.

No plans for the funeral will be announced until it is known when the body will arrive in New York.

Chauffeur Brought Back.

Branch, charged with the theft of \$180 worth of jewelry from his employer, was brought back from Washington last night by an officer from Police Headquarters and locked up in the First Police Station. GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy, lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excess oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair; but what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, a few lots of it, surely get a 25-cent bottle of Keweenaw's Danderine from any drug store or toilet counter and just try it.—ADV.

SEES FARMS ON MARS

Dr. Lowell Declares So-Called Canals Are Strips of Vegetation.

[By Associated Press.]
BERKELEY, CAL., October 17.—Dr. Percival Lowell, for twenty-two years head of the Harvard Observatory at Flagstaff, Ariz., in an address at the University of California last night, announced his most recent deduction from his study of the planet Mars that the so-called "canals" were not water channels, but strips of vegetation under human cultivation, and undoubtedly supported by artificial canals.

In support of this decision, Dr. Lowell said he had determined that the smallest observable spot on Mars would be at least ten miles in diameter. Canals, therefore, could not be seen from the earth. Mars, he added, has four seasons much like ours, but longer.

Dr. Lowell said it was absurd to assume that the earth was the only planet having intelligent inhabitants.
